Dear Parents

Lateness
A vast numbers of students are arriving late to school each day. I see many parents and students arriving after the bell on a regular basis.

What is the impact of lateness?
• Students miss vital time to settle in for the day
• Teachers must delay the start of their lessons or your child misses the introduction to the first session of the day
• All this adds up to missed learning time which is not acceptable

5-10 minutes per day is nearly an hour a week of missed learning; a day per month; 4 days per term which could lead to 12 days per year.

Could you please make every effort to ensure your child is at school on time so that the start of the day can be as smooth as possible.

Extra Curricula Activities at EPS
Extra curricula activities are activities and programs that occur at school outside of our normal classroom programs. We provide many of these activities to give each student an opportunity to pursue a special interest or a different method of learning. These programs lead to heightened engagement by students and help provide a very rounded education. Schools can decide how many of these activities are offered.

At EPS we are proud to offer 25 extra curricula activities.

Extra Curricula activities include:
• Aerobics teams
• Bolt (Bikes over Lunch time)
• Chess Club
• Choirs : Grade 1, 2, 3/4 & 5/6
• Computer Clubs - Jnr & Snr
• Drama Time
• Footy card trading
• Future Foundations (Saturday art classes)
• Guitar lessons
• House Art classes
• House Sport at Lunchtime
• Kelly Sports
• Keyboard lessons
• Lunchtime Art Club
• Mini Picasso’s (afterschool Art)
• Orchestra
• Percussion lessons
• Premiers’ Reading Challenge
• Running Club
• TOM – Tournament of the Minds
• Ukulele lessons
• Violin lessons
• Woodwind & Brass lessons
• Writers Club

Port Phillip Interschool Chess Tournament
There are still places available for students to be part of the Elwood Chess Team on Friday 5 June. If your child is interested please collect an entry form from the school office.

AGM – Annual Report
Last Wednesday night our Annual General Meeting (AGM) was held. At the AGM a summary of the 2014 school year was given. A copy of the Annual Report is available on our website. The report covers our school context, strategies for the 2015 school year, data from various surveys, a financial summary and student achievement tables.

Camps, Sports & Excursion Funding
The Victorian Government have unveiled a new $148 million initiative to ensure all Victorian students can take part in school trips and sporting activities. The Camps, Sports and Excursions Fund (CSEF) will run over four years and provide payments for eligible students to attend camps, sports and excursions.

Families holding a valid means-tested concession card or temporary foster parents are eligible to apply. $125 per year will be paid for eligible primary school students, with $225 per year paid for eligible secondary school students. Payments will go directly to the school and be tied to the student. Visit the school office for an application form or more information.

Jodie Scanlon
Last Friday the staff said goodbye to Jodie Scanlon who has been a part of EPS over the last 24 years. Jodie has been heavily involved in OSHC, school sport, camps, school productions and grounds maintenance. More than that however Jodie has been someone who has given so much of herself to EPS being a warm and calming presence over the last 24 years.

School Council has seen it as very fitting to acknowledge Jodie by awarding her a place on the 'EPS for outstanding contribution to our School Community' plaque. The inscription will read: "24 years of generous and heartfelt contribution to EPS school life'. The plaque is on display outside my office. We wish Jodie all the best as she moves to Licola to work full time at the Licola camp.

Alex & Elsternwick Bowls Club
On Monday at assembly Alex was presented with a new set of bowls by the Elsternwick Bowls Club. Alex participated in bowls sessions in Term 4 last year as part of our sports program. He enormously enjoyed the sessions and asked Elsternwick Bowls Club for a second hand set of bowls so he could pursue his passion for the sport.

The Bowls Club were so taken by this that they organised a new set which they proudly presented to Alex at assembly on Monday. There was an article in the local Leader - see below. Thanks to the Elsternwick Bowls Club for their support - once again community spirit shines through.

Rob Csotí
From the School Council President
The new School Council met in March. We farewelled Kirsty Cleland and Gary March and thanked them for their contributions over the past 5 years (Kirsty) and 2 years (Gary). We welcomed Michael Newton and Glen McCann as parent representatives and Jay Tucker as a DET representative. Christina Redlich and Barb Luebbers were again co-opted as community members.

I was re-elected as President for my sixth year. As my youngest daughter is in her final year at EPS, I plan to complete this role at the end of 2015. I am still excited about the journey that EPS is on, and look forward to working with Rob to achieve the vision for the school. It has been and continues to be a privilege to hold this role. We also welcomed Anna Marinovich as the Vice President of the School Council.

---

**Bowls club gets the ball rolling**

**Jon Andrews**

AN ELWOOD boy has received a bowling boost thanks to the generosity of a Brighton club.

Alex Angelopoulos, who is in a wheelchair due to a disability, can happily enjoy the game after the Elsternwick Park Bowls Club gave him some special gifts.

The club has provided the 11-year-old with a mechanical arm and a set of bowls to pursue the sport he now loves after enjoying an introductory school session at the club last year.

"I am really looking forward to playing lawn bowls for sport as it's the only sport I don't have to have someone run for me and I can do myself without too much help," Alex said.

Club president Joe Arons said they were always happy to help wherever they could.

*Alex enjoys a bowl with the help of Elsternwick Park Bowls Club president Joe Arons.*
A major project for School Council this year includes the provision of solar power for the school. This project will have major environmental, economic and importantly, educational benefits for our children. We have been fortunate to secure $5,000 from the Bendigo Community Bank, and School Council has agreed to underwrite the difference, largely from School Market funds, if another source of funding is not found.

We also look forward to strengthening the Elwood Learning Hub (which will be further enhanced by the State Government’s commitment of Budget funds to build Stage 1 of the Elwood College Master Plan), and the interaction between the three sites. A strategic plan for the Hub has been adopted, which will help target our work.

This year School Council will be working through a number of key policies, including:
- Excursions/Incursions
- School Uniform
- Special Religious Instruction
- Anaphylaxis Management
- First Aid
- Sun Smart
- Student Engagement and Inclusion
- 2015 Annual Implementation Plan
- Community Market Facebook Policy
- Student Assessment and Reporting
- Privacy and Information to other Schools; and
- Complaints and Concerns Policy.

We encourage parental input into these policies, as they help shape the way the school achieves its vision. We also welcome parents joining the Sub Committees of the school, which include Strategic Planning, Community Engagement and Communication, Environment and Grounds, plus Finance.

Towards the end of this year, we will also start planning for the school’s centenary, in 2017. Another challenging and exciting year lies ahead for School Council, and I look forward to being part of it.

John Richardson
School Council President

You Can Do It!

Term 2 : Organising

Organisation means setting a goal to do your best in your school work, listening carefully to your teacher’s instructions, planning your time so that you are not rushed, having all your supplies ready and keeping track of your assignment and homework due dates. Being organised helps you to learn at your best.

This fortnight we will focus on:
Consequences and Rights

To become good citizens, we need to understand rights and responsibilities as well as consequences for our actions, both good and bad. A citizen is a member of a community. That community can be small, like a classroom or school, or large, like a city, state, or country. The global community includes everyone on Earth. Everyone is a member of a community and everyone has a responsibility to maintain it.

A responsibility is a duty or something someone should do. A responsibility can be a chore at home or school or it can be following rules, helping other community members and making positive changes. When someone works to help the whole community, he or she works for the common good. Obeying laws is an important responsibility.

Computer Club

Junior School Computer club is up and running for 2015. The club, run by the Grade 6 ICT leaders, is currently teaching students how to use a basic coding program called ‘Scratch’. Corey Hall 2C
A law is a rule set by a community that tells how to behave or act. Different communities have different laws. If a community member breaks a law, there are consequences. Laws also help protect citizens’ rights.

A right is a freedom that is protected. Citizens of different countries have different rights. These rights include freedom of speech, freedom of expression, and freedom of religion.

All children, like adults have rights, but they also have responsibilities. Everyone has the right to practice their own religion, but everyone has the responsibility to respect people of different religions. In school, every child has the right to learn, but every child has the responsibility of arriving to school on time, completing homework and following school and class rules.

Children as well as adults make decisions every day. Even young children regularly choose how they will behave, which toys or games they would like to play with, which books they would like to have read to them, or which television shows they would like to watch. As children get older they make bigger decisions that often involve their family, their friends and their schoolwork. The kinds of decisions children make affect their wellbeing, their relationships and their success. So, what can we do to think about our actions and consequences?

**Do:**
- Use self talk such as “Stop, I’d better think about this first.”
- See things from different angles
- See other people’s points of view
- Think ahead and plan, consider the consequences

**Don’t:**
- Focus on one aspect of a situation
- Focus just on yourself
- Want things right now and not think first
- Make decisions based on a whim

**Manners Matter**
This fortnight, we are focusing on the skill of negotiating.

Negotiation involves trying to get what you want by firstly working out what the other person wants and trying to give it to them.

Negotiating needs to be planned and each side has to complete their side of the bargain. For example, you might want a ride to footy training so you negotiate with Mum or Dad to give you a lift and in return you will put the rubbish out. If you don’t keep up your end of the bargain, you won’t be trusted the next time and you will have to work on negotiating again.

**Negotiation Do’s:**
- Do decide what you want
- Do think about what the other person might want in return
- Do pick a good time to ask
- Do use a friendly voice
- If you can’t work out what the other person wants in return, ask them directly
- Do keep your side of the bargain

**Negotiation Don’ts:**
* Don’t ask at inconvenient times (e.g. when the other person is busy or talking to someone else)
* Don’t use a grizzly, whingeing voice
* Don’t threaten or sulk or get angry if you don’t get what you want. You can always try again.

**Manners Matter at Elwood Primary**
Nicole Richards … Assistant Principal

**Garden News**

**Volunteers** are essential to the success of our kitchen garden program. To mark volunteer week, the children presented each of our garden volunteers with a strawberry plant which the children had propagated from the runners on the plants in our garden. Thankyou to all our volunteers who support our classes even during the recent inclement weather!

![Garden News Image]

**Donations**
The Gulliver family and Haar’s nursery recently donated a huge tray of seedlings. This nursery specialises in ‘superfoods’ and unusual edible plants. Our new plants are becoming established in the garden and we are looking forward to using produce such as sorrel, olive herb, curry leaves and purple carrots in the kitchen. If you are interested in Haar’s products, they are available at Bunnings.

One of our community volunteers, Sue Gray, donated a number of rhubarb and asparagus plants.

**Citywide** recently donated and delivered a pile of mulch for use in the garden (see photo next page).
Thank you to our community for their support. We are still looking for help with:

- **Chooks**: more families to feed the chooks over the weekends or holidays.
- **Manure**: does anyone have a source of horse, cow or sheep manure?
- **Pruning**: the fruit trees will need to be pruned over winter – can you help?

Kate Bulling … Garden Specialist
bulling.kathleen.k@edumail.vic.gov.au

**News from the SAKG Kitchen**

Many thanks for the generous donations of dry goods, vegetables, lemons and tea towels, they are very much appreciated.

We have been frantically making pasta in the kitchen, fettuccini, lasagne, ravioli and spaghetti which the children love making and eating!! Unfortunately our pasta machines are struggling. We were lucky to have one donated but ideally need a few so that all children experience pasta making. If you have one you no longer use or need, we would love to have another one. We are also very low on cutlery if anyone has spare at home that would be fantastic.

Thank you to all our lovely volunteers especially since it has just been Volunteers Week; as the children say, ‘we could not have this program without you’.

Last weekend we covered Allergy Awareness week which focussed on Awareness, Avoidance and Action.

Janet & Catherine … Kitchen Specialists

**School Production**

We are right in the middle of preparing for our school production this year. It will be called ‘Forever Young’ and features the story of a young girl who, while looking after her Grandfather discovers his past by reading a diary. The show takes place in the past and in the present.

Students will be dancing and singing songs from the 1960’s and we will see icons from the era such as, Bob Dylan and Elvis. Our main characters teach us about life and times of the 60’s. All the while on a journey to discover the confidence and hope that you can become anyone you want in life. The show features songs such as Twist and Shout, Born To Be Wild, Rhythm of Life, My Favourite Things and Monster Mash.

Good luck to everybody who is auditioning for a part, you will find out when your audition is soon! Rehearsals for students are set to commence in earnest from the very beginning of Term 3!

Remember the date, **Tuesday 8th September, 6:30pm at The Palais**. I would like to say again that we wouldn’t be able to run the school production without the support and contributions from the EPS staff and volunteers from the community.

The music for our concert will again be supplied by our very parents who have generously joined the In-House band. We’ll be ready to rock and dive into the sounds of the 60’s.

Kaz Sieger … Music

**Our Global Calendar**

Each newsletter will inform you of global events and is a way to celebrate significant cultural and environmental events. This section of the newsletter is a terrific springboard for conversations at home! So, what’s on in the coming weeks?

**27th May: World MS Day**

World MS Day is a day to educate and inform people across the world about the different types of access issues faced by people with Multiple Sclerosis.

**30th-31st May: Red Shield Appeal**

Each year The Salvation Army provides assistance to over one million Australians. To continue providing their high quality community services, they need you to support their Red Shield Appeal. You can get involved by either becoming one of their 100,000 volunteer collectors or giving money to their door knockers or online Red Shield donations campaign.
1st June: Day of Vesak / Saka Dawa (Tibetan) - Buddhist “Vesak”, the Day of the Full Moon in the month of May, is the most sacred day to millions of Buddhists around the world. It was on the Day of Vesak two and a half millennia ago, in the year 623 B.C., that the Buddha was born. It was also on the Day of Vesak that the Buddha attained enlightenment, and it was on the Day of Vesak that the Buddha in his eightieth year passed away.

3rd June: Mabo Day
Mabo Day commemorates the anniversary of the 1992 High Court decision in the case brought by Eddie Mabo and others which recognised the existence in Australia of native title rights. The historic court decision buried the legal description of early Australia as ‘terra nullius’, or ‘no man’s land.”

7th June: National Whale Day
Launched in 2008, National Whale Day is a celebration of the whales and dolphins that migrate to our coastlines annually and Australia’s position as a world leader in whale conservation. National Whale Day provides an opportunity to raise awareness of, and discuss solutions to, the threats facing whales and their environment including whaling, noise pollution, vessel strikes, marine debris and by-catch, entanglement and climate change.

Enjoy your upcoming weeks, whatever it holds or whatever you are celebrating!

Nicole Richards … Assistant Principal

What's happening during Weeks 7 & 8 at Elwood Primary School?

Level 1 (Prep)

**Literacy:**
This fortnight in Literacy we will be continuing to learn all about digraphs by introducing the "ch" and "th" sounds. When reading, we will be looking at how we can make connections between characters and settings from different stories. We will also be practising how we can chunk sounds together when we are reading to help us decode unknown words. During our Big Talk and Big Write we will be reflecting on our Investigation science experiments and completing a recount on our Silly Science incursion. Vocabulary will be our focus through our writing this fortnight in particular how we can use science specific language in our writing. We will be working hard on include lots of wow words into our writing. Our learning intentions while writing will include "I can write a letter for each syllable in a word" and "I can use words from around our room in my writing".

**Maths:**
We will be starting a new unit on measurement and time. We will be learning about how we compare weights of objects by observation and hefting them with our hands. The children will also be practising ordering objects from lightest to heaviest and developing our language for describing weight. When learning about time, we will be sequencing days of the week, events as they happen in time and using terms such as yesterday, today and tomorrow.

**Investigations:**
In preparation for our Silly Science incursion in week 8 we will be conducting a number of science based experiments during our Investigations. We will be looking at our YCDI and Manners Matter of setting goals and how we can include others.

**Other:** We are super exciting about our Silly Science incursion coming up in week 8 on Wednesday the 3rd of June.

---

**Level 2**

**WRITING**
This fortnight our explicit text type is writing poetry. We will be listening to a variety of poems, responding to poetry and be exposed to different poetry structures. The type of poetry might include free verse, haikus, acrostic poems, cin quain or non-rhyming poetry.

Our VCOP focus is looking at connectives, exploring different conjunctions to best link two ideas together in a sentence. Our handwriting focus is the magic c letters: a c o d g. Each class will have their author study and spelling strategy and spelling sound pattern to explore. Our Big Write will be writing a procedural text.

**READING**
Our reading strategy is analysing. We will be identifying the chronological sequence in stories, noticing how the writer has made a story funny or surprising, identifying points of view from a story and recognising and discussing the author’s intended purpose of the story.

**MATHS**
In Maths we are learning about Subtraction. We will be using a range of different strategies that can be used to solve addition and subtraction problems. We aim to use the most efficient strategy. Subtraction is the inverse of addition, that is, one undoes the other eg. 5+8=13 \[13-5=8\]. Knowing addition facts helps you to learn subtraction facts and there are specific symbols that are used to represent subtraction.

**INVESTIGATIONS**
The environment focus is energy. We will be looking at how heaters and air conditioners are used in our classrooms and what we can do to use less power.
Level 3

Year 3

Literacy: During writing sessions students will continue to explore the effect that their word choices have on the reader of their text. Students will be investigating how the inclusion of different words affects the mood of a setting or the reader’s understanding of a character.

Maths: During maths sessions students will be exploring fractions. They will be creating pictures of unit fractions and their multiples (e.g. 4/5, ¼, ½, 2/3).

Inquiry: This fortnight students will begin working on their Education Research Projects (ERPs). Students will be working closely with their teacher to complete their proposal forms. The remaining Inquiry sessions will focus on learning about a variety of research sources and how to use these to effectively answer the questions within their projects.

Year 4

Literacy: During writing sessions students will be focusing on accurately using punctuation. Students will be identifying the use of brackets (to add more information) in texts they read and will have opportunities to apply this skill to their own writing.

Maths: Students will continue to focus on the amplification and division. Students will have lots of opportunities to practise recalling multiplication facts and the related division facts in various orders. It is a national expectation that students are able to quickly recall all multiplication and division facts up to 10x10 by the end of Year 4.

Inquiry: During this fortnight students will begin working on their ERPs. Students will pick a force to design an experiment around and then will plan their experiment, ensuring that they are conducting a fair test.

Level 4 (Year 5 & 6)

Literacy: In reading grade 5 classes are developing their comprehension skills through visualisation. We are improving our ability to picture the text in our minds as we read to further engage in written work and make meaning from words. During regular Book Club sessions we will practise visualising and compare and contrast our different views. Grade 6 classes are continuing to analyse the texts we read. This fortnight classes will be exploring a variety of literary devices that authors use to convey meaning and add spice to their writing. We are also working on using evidence from the text to justify our opinions.

In writing grade 5 classes are working on planning narrative texts in a thorough manner and developing more complex topics. We will be working on carefully crafting engaging openings that set the scene and draw in our readers. Grade 6 classes are continuing to plan and draft our mystery stories looking at how to introduce the mystery in an interesting and enticing manner.

Maths: Grade 5 and 6 classes are finishing our focus on multiplication and division and beginning work on our measurement unit focusing on volume and capacity. Grade 5 classes are focusing on choosing appropriate units when measuring volume, capacity and mass. Grade 6 classes are focusing on converting between metric units of measurement.

Inquiry: This fortnight in physics, grade 5 classes will be exploring the variety of sources that can be used to generate electricity. We will be looking at the different types of energy that are used around the school.

Grade 6 classes are continuing to explore and learn about chemistry. We will be investigating the idea that changes to materials can be reversible, such as melting, freezing, evaporating; or irreversible, such as burning and rusting.

Grade 5 and 6 classes have all loved conducting experiments in class and are now beginning to develop their own ideas for their ERP educational research projects.
The 2015 Victorian Interschool Snow Sports Championships will again be held at Mt. Buller from

**Sunday 23rd August to Friday 28th August**

With divisions 4 (Year 4 & under) & 5 (Years 5 & 6) competing from Monday 24th to Wednesday 26th

Check out [www.vicinterschools.com.au](http://www.vicinterschools.com.au) for more info

Elwood Primary School has sent a team of skiers and boarders for the last two years and achieved some fantastic results but, more importantly, had a wonderful time with memories to last a lifetime.

In addition to the entry terms and conditions outlined on the website, the team will be self-organised (not by the school), parents must attend and supervise their own children and may be required to assist with volunteering around the various race courses.

It promises to be another fantastic week, so if you can meet all of the conditions and want to register your interest or have any questions, please call Matthew Franceschini on 0411 123 154 or email mf@entitysolutions.com.au
ELWOOD OSHC HIGHLIGHTS

The weeks are rolling by and the fun continues at Elwood OSHC. We have had some great themes suggested by the kids the last few weeks. We had Jungle theme, Healthy Food week, Portrait/drawing theme and Buddy Leaders theme. During Jungle week, the kids enjoyed matching the different prints of animals in the jungle and cutting them out to make their very own jungle picture. They made 3D animals and clay animals as well.

With the new Healthy Food Pyramid being re-introduced, we discussed with the children healthy food items they enjoyed, what we should be eating more of and what we should be eating less of for our well-being. Many of the children were very knowledgeable about this and most of them knew to ‘Go for 2 & 5’ – 2 fruit and 5 vegetables! We are very proud of all the healthy foods the kids decorated and have now been displayed around the kitchen window in the hall.

Portrait and Drawing week, the kids used special framed paper to enter into a portrait competition. Well done to the winners: Sienna McC, Sophie S and Madeleine R. We also had some great portraits done by Deidre G and Catherine M. Excellent job! We also had some fun with our imaginations; the kids used special stickers on pictures to design their own crazy face.

In cooking, we have been very busy! We have made carrot cake, nachos, jam scrolls, coconut and jelly balls, vanilla biscuits and banana bread. It's always great to see the kids working in groups and sharing responsibilities in the kitchen to whip up some delicious food. Thank you to our cleaning super stars too: Max M, Sienna McC, Billy J and Max S. Stand-out superstars when it came to helping and cleaning in the kitchen – Well done!

WINTER ACTIVITY DONATIONS

Moving into the colder, wet months, we will be spending much more of our time indoors. There are plenty of activities and resources we offer; however, the program will operate even better if the children had even more access to a variety of games/activities. If any families have board games, foosball tables, mini pool tables or things of this kind you would like to donate to OSHC we would very much appreciate it. Please contact, myself, Sharlene on: 0422 005 489 to make arrangements.

Port Phillip Interschool Chess Tournament

Elwood Primary School
Entry Form

5th June 2015
9am to 2pm

Elwood Primary School is proud to be hosting the upcoming interschool chess competition on 6th May. This is a great chance for your child to be part of the Elwood chess team (coordinated by parents) that usually attends a couple of competitions a year. It is also a great opportunity to gain valuable competition experience in a friendly atmosphere.

The competition is 7 rounds of chess (each game is 30 minutes) with 15 minutes on the clock per player. The cost is $20 per player and currently there are 20 places available.

If your child is interested, please return the below form to the EPS office with $20 (competition cost) included in an envelope by Friday 29 May. The interschool chess competitions are run by Chess Kids.

For more information contact Kylee Shiel 0402256675 or kylux@bigpond.net.au
