Learn music here at school

Come and join in the fun of learning to play keyboard, guitar, drums, here at Elwood Primary School.

Creative Music for Schools conducts a music program here at school each week.

Small group classes or one-to-one lessons of up to 30 minutes give children an excellent grounding in music where they will learn to read music and play their chosen instrument.

Tuition costs from \$19.90 per lesson and enrolments are now being accepted for limited places in term 2, 2018.

Interested parents should call Swee during office hours on 9818 2333 or email swee@creativemusic.com.au

Join **Drama Time** at Elwood Primary 2018!

**An exciting and rewarding drama
program for all ages!**

Gr 1 -Gr 2 Mondays 1:45pm - 2:30pm - School Hall

Gr 3 - Gr 6 Wednesdays 1:45pm - 2:30pm - School Hall

"Eden loves her Drama class. She always comes home on Tuesdays with great stories from the session."

Parent

St. Finbar's PS Brighton

"Thank you so much for having Saskia. She talks about Drama Time constantly and just loves it. I love hearing about the wonderfully creative things she does in that class."

Parent

Carnegie PS

"Enrique's confidence has increased enormously over the last few years thanks to Drama Time."

Parent

Brighton Beach PS

Electrical Engineering Program Overview

Benefits of Electrical Engineering:

- Problem solving
- Concentration and focus
- Analytical skills
- Fine motor skills
- Ability to translate a diagram into a practical application

Program Highlights:

- Our course is based on solderless electronic circuit assembly. This process allows students to build, test and use fully working electronic circuits. Students learn about basic electronic components such as resistors, capacitors, light emitting diodes (LEDs), light dependent resistors (LDRs) and transistors
- Students also learn about the concepts of resistance, voltage and current and Ohm's law - which is then used to analyse and troubleshoot circuits that they have built themselves!
- The classes takes a hands-on approach to building fun electronic circuits that perform specific functions that are relevant to the real world. Students build projects that:
 - detect the presence of water,
 - sense whether it is light or dark,
 - create sound effects using light,
 - flash lights like seen at railway level crossings,
 - count objects electronically,
 - simulate a dice roll

Available As:

Extra-Curricular

Holiday Program
